AIA Southwest Washington Continuing Education 2009 Series

CE Lunch Series:

Pervious and Permeable Paving Systems Overview

April 30, 2009

12:00pm-1:00pm

AIA SWW Chapter Office
1201 Pacific Avenue, Suite C4
Tacoma, Washington 98402

1 SD HSW Learning Unit

Free for AIA Members

\$10 for non AIA

Lunch included

Limited seating

Provider

The Berger Partnership PS

Landscape Architecture

The program presents three types of paving systems. It begins with explanations, case studies and material requirements for each type. A discussion of design considerations, costs and benefits as they pertain to the environment and LEED® certification, will help attendees make informed decisions for specifying successful paving systems for a variety of situations and budgets.

Program Outline

- I. Paving System Overview
- II. 3-System Comparison & Case Studies
- III. Typical Paving Section Profiles
- IV. Cost Analysis
- V. Benefits for LEED Certification and Environment
- VI. Design Considerations and Projects to Visit

Presenter: **Steve Shea**, Landscape Architect, ASLA is the managing principal at TBP with 35 years of experience in the design of landscape paving systems.

RSVP by April 27th to Cheryl Zoltak by fax 253.572.2634 email aia@aiasww.org, or call 253.627.4006
